The Activity Centre 'Artistic Manoeuvres' art exhibition was amazing showing the various art forms created by all the students including mosaics, embroidery, tapestry, puppets, musical instruments and masks to name but a few of the mediums they have used in expressing their ideas and talents. All the staff acknowledge that none of this would have been possible without our amazingly creative art director Mellissa Durbin. We are all mindful that it takes very special people to bring out the artistic potential and talent in others which is so often hidden until unlocked by someone of the unique calibre of Mellissa.

The members who attended were John and Rita Radley, Linda Nelson, Jan Mitchell, Julie Cooke, Hilary Reid, Teddy and Alister Martin, Phyllis Green, Claire and Phillip Jew, Margaret van Veen. The guests had either signed the original Application for Incorporation or have been members of Ranfurly since its inception in 1991/1992

As the copy of the 1991 'Application for Ranfurly's Incorporation' was not included in the 20 year Ranfurly reflection book

this is a further opportunity

to thank all those members for their vision and determination to succeed.

The residents have the most amazing weekend outings thanks to the creative staff – the smiling faces tell all

Many people on this mural are sadly no longer with us. It seems then a good way to close and reflect of times past remembering with affection all those who have played a large part of the Ranfurly family

Kind regards Linda Nelson Manager
